

General/ VIN Review Cont...

1969- 72 Font type Hamtramck, St. Louis and Los Angeles and Lynch Road cars.
Note: Some of the font characters uses in 1968 are unique to the Hamtramck Assembly Plant.

Confirmed unique fonts from 1968 Hamtramck Assembly Plant built cars

Pts# The vehicle VIN number is stamped on a raised machine pad on the right hand side of the block just above the oil pan rail. All VIN digits have a numerical size of .203" in height. The mechanical judge should be familiar with the correct type of font and the possible factory anomalies.

1968 Hamtramck Assembly VIN font reference on an engine block .

1968 Hamtramck Assembly VIN font reference on a manual the transmission.

This star to the left side of the VIN has been seen on re-stamped original factory installed engines in the past.

Note: This was the process requirement at the final assembly plant if a block was re-stamped.
